

CCM-LED

Post Top LED Area Light

Applications:
Office complexes, Campuses, Parks, Townhouses & Walkways

FOR CLEAR LENS ONLY

DESCRIPTION:

The Coachman Series has a traditional, architectural look with the latest LED technology including options for beam distributions and lumen adjustability in an easy-to-install design.

FEATURES:

Construction

Cast Aluminum housing with f1 rated UV resistant clear/frosted lens. Spun aluminum reflector for widespread, even illumination.

Driver

Driver has Short Circuit & Open Circuit Protection and temperature foldback. Temperature foldback circuit reduces the output current to ensure that the LED temperature does not exceed the set value, protecting the LED from failure. Driver complies with UL8750, Class 2 output. Electromagnetic Compliance - FCC Title 47 Part 15 Class A.

Optics

Available in T3, T4 or T5 beam distributions. Optics are rated IP65.

Mounting

Mounts a 2-3/8" to 3" OD vertical tenon. Custom pole adaptor options available. Fixture can also be wall mounted through a Decorative Wall Mount bracket sold separately.

Easy Installation

Easy opening of the top of the fixture to access lumen adjustable switch, maintenance purpose.

Finish

Corrosion resistant polyester powder paint. Sandtex Black is standard. Custom Colours available.

Lumen Adjustable Option

A rotary switch for lumen adjustment is a factory installed option. To access the switch, Installer needs to open the top of the fixture. There are options for 3 switch settings as shown on the right:
