

Features

Toolless Optic Swap

This leading edge technology enables contractors to swap from wide to narrow beam in the field. Allowing you to choose the right optics in the field without any tools.

Contractor Friendly

A small, lightweight footprint and easy installation with pre-installed 10ft cord, 6 ft suspension chain allow for one man easy installation.

Better Performance

Provides higher efficacy and significant energy savings while delivering premium optical performance with glare-free lens and even illumination. The die-cast aluminum housing ensures optimal heat dissipation allowing for operation at a higher ambient temperature. LHS family offers universal features, consolidating 15+ SKUs into only 3 for efficient stocking.

LINEAR HIGHBAY

Small in Size,
Big in Performance.

**Gymnasiums, Warehouses, Grocery
Stores, Factories, Car Dealerships**

RAB[®]
DESIGN

Proudly Canadian

A Canadian company with local engineering, manufacturing and warehousing.

Since 1968

Serving the Canadian electrical industry with innovative lighting solutions for over 50 years.

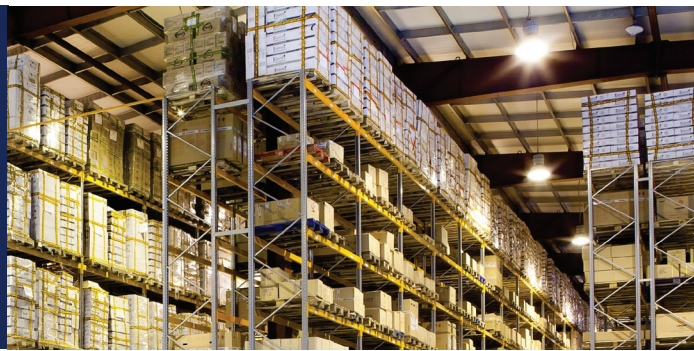

Best In Class Customer Support

Helpful and knowledgeable team on your side committed to making your installations easier.

rabdesign.ca 1-800-268-0381

RAB offers a wide range of highbays to meet most of the commercial and industrial needs.

Linear Highbay

LED Round Highbay

Speciality Flood and Highbay Luminaire

LHS-LED

- Smaller footprint, even better performance – Higher efficacy, better ambient temperature
- Optics swap - choose the right optics in the field without any tool
- Price efficient

WATTS: 60-320W
LUMENS 9000-47000 LM
MOUNTING HEIGHT: 15-35ft
DAMP LOCATION
HIGHLY SELECTABLE
STOCK AND FLOW
\$

RHS-LED

The RHS-LED Series of highbay luminaires are ruggedly designed, and deliver a high lumen output. This fixture series offers the most current, easy to use, affordable control options adding greater functionality to your installation.

WATTS: 60 - 300W
LUMENS 9000 - 52000 LM
MOUNTING HEIGHT: 15-45ft
WET LOCATION
HIGHLY SELECTABLE
NSF, NEMA 4X,
STOCK AND FLOW
