

Put Your Students First, With Bright, Comfortable Classroom Lighting

The CBT-LED Series by RAB Design Lighting is the premier lighting option for schools, classrooms and offices. These center basket troffer fixtures offer **comfortable, even light distribution, premium quality**, and all at the **same price point as a ceiling panel**.

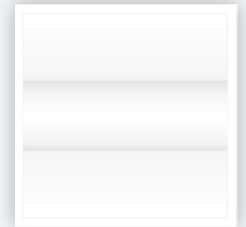

CBT-LED Center Basket Troffers

- ✓ Architectural design & superior performance.
- ✓ 0-10V or TRIAC dimming technology.
- ✓ Adjustable colour temperature and lumen switches.

2' x 4' Version

2' x 2' Version

Why Choose CBT-LED Troffers for Your School?

Inspire concentration and clarity in the classroom with its **vibrant and even illumination**.

Energy efficient LED technology keeps **electricity costs lower**.

Effortlessly retrofit existing spaces with standardized T-BAR ceiling installation and lightweight fixture profile.

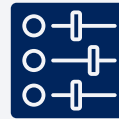

With CBT-LED Troffers, Lighting Goes Beyond the Basics

**2 Step Quick
Assembly**

**Wide Voltage Range
(120-347V)**

**Selectable Colour
Temperatures (3K/4K/5K)**

**Lumen Adjustable
(Up to 6680 Lumens)**

On-the-Job Flexibility

- Adjustable: installer can choose between 3 wattages and colour temperatures at the time of installation.

Sustainable Packaging

- 4-per-box packaging option reduces cardboard waste at job sites.

Construction

- Metal housing with white powder coated paint finish and polycarbonate lens. Frosted smooth diffuser provides even and low-glare illumination

Precision Dimming with TRIAC Technology

- Compatible with wall dimmer switches.

Note: Only available in 120V and dedicated wattages (CBT22-30W, CBT24-50W)

Lighting Performance

- Fixture has a high colour rendering index (CRI) of 86.
- High efficacy of 141 lumens per watt.

Smart Control System

- Lutron Athena Wireless Node allows zone and control changes digitally and wirelessly.

**Create a comfortable learning atmosphere
