

**NITE-SENTRY<sup>®</sup>**  
**SECURITY LIGHT**

## NS2H-LED25A17

### Introducing the Nite-Sentry, your loyal, watchful, diligent light.

The NS2H is a twin head outdoor security light that is durable, easy to install, and features versatile controls to adjust brightness, colour temperature, motion sensor sensitivity, standby time, accent light, and photocontrol settings.

### Available in 2 Versions and 2 Finishes

The NS2H-LED Series is available with or without **integrated motion sensor & dusk to dawn accent light**, and in **matte black or white finish**.

### Installer Friendly Design

Each fixture comes with an aircraft cable support; installer can complete wiring easily, quickly and safely by attaching it to the mounting bracket.

### Sensor Detection Range

The sensor detects motion 180° wide and 45ft in length to offer maximum coverage in large driveways, backyards, residential, and commercial buildings.

## Features & Benefits:

Die cast aluminum housing and UV-rated clear polycarbonate lens.

Fully adjustable heads with tool-less angle adjustment in almost any direction.

Integrated visor shields direct light and **reduce unwanted glare**.

**Advanced protection against water and dust:** factory sealed fixture design with tight fitting junction box gasket included.

**Integrated motion sensor** minimizes blind spots and **can be turned OFF** using control settings.

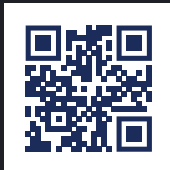

**Dusk to dawn accent light** provides minimal ambient light levels for added security. Can be turned off if not needed.

### Tool less, Easy-to-Use Controls
