## Now with **CONTROLLED**

Harnessing the power of Bluetooth Mesh technology, **ControlLED by RAB DESIGN** enables the seamless control of lighting fixtures, meeting your lighting control needs how you want them, when you need them.

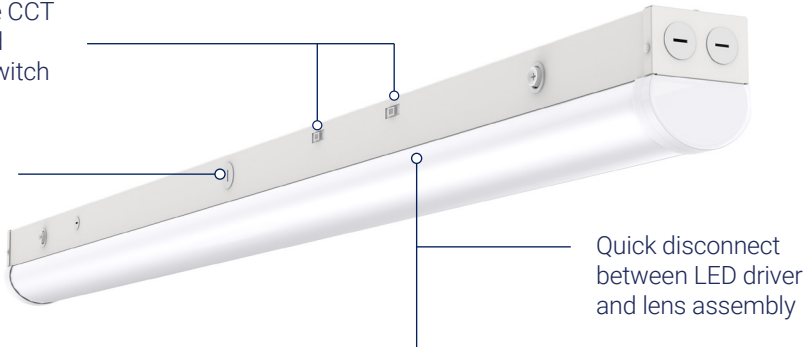

# Innovative New Design Makes Installation Quick and Painless

Three convenient sizes for you to choose from; 2ft, 4ft, and 8ft.

Accessible CCT switch and wattage switch

7x 1/2" conduit openings

Compatible with junction Box for Bluetooth PIR sensor.

Tool-less press clip for easy release of lens & LED board assembly

Aircraft cables keep the lens assembly hanging in place during installation and maintenance.

## Optional accessories to ensure every job can be completed timely and every fixture delivers its end goal.

**Junction Box** with Bluetooth PIR sensor to enable ControlledLED.

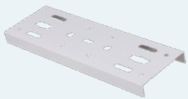

**Junction Box Cover** is standard inclusion in every box; helps seal while maintaining quick and easy access to junction box.

**DHFS** Dimming High-Frequency Motion Sensor.

**Wire Guard** to help protect the fixture from debris, foreign object impact, and tampering.

**Connecting Plate** to connect multiple fixtures together.

**Reflector Wings** allow the light to be controlled and reflected into specific areas as desired.

**Suspension Kit** including safety hooks to allow for a range of installation hanging heights.

**8W Battery Back-up** (factory installed).

**Engineered by skilled hands,  
for skilled hands.**
