INSTALLATION INSTRUCTIONS**Step 3) Commissioning**

1. Download the CONTROLLED APP using the QR codes. [3.1]
2. Ensure CONTROLLED enabled lights are added in the APP.
3. Press the switch buttons AUTO and DIM UP [3.3] together for over 3 seconds to enter into pairing mode.
4. Within the next 30 seconds, on the CONTROLLED App, on the “Switches” page, click to add the switch.
5. Select the light or group of lights to be CONTROLLED by the switch.
6. Optional: Set up to 3 scenes using the App. Once set, press the Scene button once at a time to switch between scenes.

For more information on switch specifications and commissioning, please refer to the QR code. [3.2]

**Step 4) Battery Replacement**

In the event that the remote runs out of power, do the following:

1. Pry the handheld remote cover open with a flathead screwdriver. [4.1]
2. Replace old battery with a new CR2032 battery. [4.2]
3. Reattach cover. [4.3]
