AC Disconnect and Surge Protector

30A & 60A | Fused, Non-Fused, Surge-Ready RAB DESIGN ACD

RAB DESIGN's ACD delivers safe, hassle-free disconnects for every job—available in fused, non-fused, and surge-protector-ready models.

Built for Safety, Durability, and Convenience

- ✓ **Flexible Conduit Entries**
Multiple knockouts 1/2", 3/4", and 1" conduit size entry on all four sides.
- ✓ **Jobsite-Safe Design**
Pull-out switch features "ON" & "OFF" markings, allowing removal only when power is off to ensure operator safety.
- ✓ **Simple-to-Install**
Toolless access to the wiring compartment for quick convenience.
- ✓ **Flexible Wiring Options**
Compatible with 4, 8, or 10-gauge copper and 2, 4, or 6-gauge aluminum wires.
- ✓ **Surge Protector Tabs**
Brass tabs attached to the lugs for field installation of surge protector.

Reliability Where it Matters Most

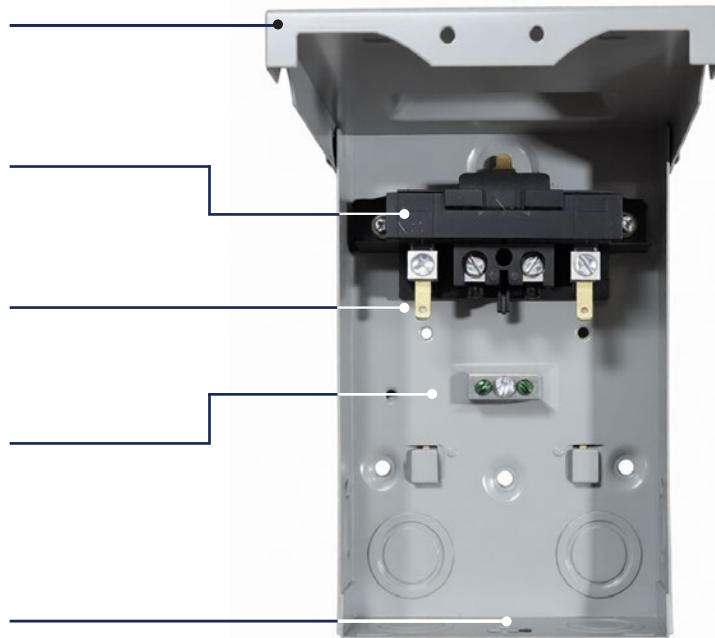

Hands-Free, Secure Access: The lid is designed to keep the cover firmly in place during servicing.

Built-to-Last: Anodized copper terminals ensure long-term reliability.

Surge Protection-Ready: Built-in brass terminals designed for surge protection device (SPD) installations.

Simplified Ground Access: Easy identifiable green ground screw to secure ground wires to electrical junction box.

Durable Locking Design: Fold-away tab helps prevent jobsite damage and extends product life.

Accessories to Take the Job to the Next Level
