

LED Retrofit Kit

RFK-LED Series

Transform old fluorescent fixtures into modern, high-performance LED lighting.

Flexibility Without Complexity

✓ Versatile by Design

One kit is compatible to retrofit troffers, wraps, and strips without complex rewiring using magnetic mountings.

✓ Simple-to-Install

- **Mount LED Bars:** Magnetically snaps onto the existing fixture housing.
- **Mount the Driver:** Additional magnets included in the box to enable quick installation of driver.
- **Quick Disconnect:** Enables “plug-and-play” fit for easy connection and disconnection.

✓ Field Adjustable Control

- **Selectable CCT:** Choose between 3000K/4000K/5000K.
- **Lumen Output:** Adjust from 2400 lm - 7200 lm.
- **Universal Voltage:** Compatible with 120-347V.

✓ Available in Three Sizes

Offered in 1x4, 2x2, and 2x4 configurations.
