

SKY SELECT

Sky High Performance

Experience the synergy between elegance and performance

with our brand-new SKY Select. Elevate your projects with a harmonious blend of enhanced performance, a contractor friendly design, and architectural aesthetics. Explore beauty in functionality with our new premium product - SKY Select.

Solution for Urban Spaces

SKY Select is the perfect blend of aesthetics & functionality accomplishing most of the architectural and landscaping requirements.. It's shape and features complement the SKYBOL Bollards.

High Performance Fixture

SKY Select offers dark sky friendly illumination with a higher lumen package up to 18,500 lumens. It is highly selectable with a field adjustable lumen switch, variable CCT and multiple mounting and control options.

Contractor Friendly Installation

This light weight fixture offers easy installation with tool-less entry and wiring compartment for easy connection. The field-installable house side cut off shield can be rotated as necessary.
