

VP4-LED

NARROW LINEAR VAPOURPROOF

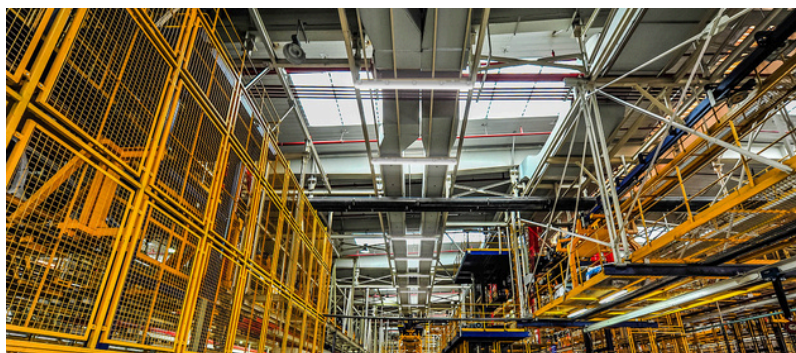

The VP4 is a four foot linear vapourproof fixture with color temperature selectability and a wide voltage range.

Its durable build makes it ideal for use in wet locations both indoors and outdoors such as parking garages, industrial and commercial spaces.

The fixture combines rugged construction with advanced features to deliver reliable, tailored illumination.

Ideal Applications: Industrial Application, Warehouses, Underground Parking Garages

**The VP4-LED
Vapourproof
Light Offers:**

**Colour Temperature
Selectable**

120-347V

Universal Voltage

VP4-SELECT

Predrilled 1/2" conduit entries
for ease of installation

Adjustable stainless steel
mounting brackets

Polycarbonate clips (x10) for
locking the lens to the housing

Polycarbonate housing with
frosted polycarbonate lens

[3.8 in]
96 mm

Narrow Body Design

**High Frequency
Motion Sensor Control**

SPECIFICATIONS:

Wattage: 35W

Lumens: 4900 lm

Voltage: 120-347V

Efficacy: 142 lm/W

Controls: Dimming High Frequency Motion Sensor

Additional Option: 8W Emergency Battery Backup

Colour Temp: CCT Selectable
3500K/4000K/5000K
