

RAB DESIGN Post Top Area Light

XBAR-LED Series

The RAB DESIGN XBAR-LED series combines universal lumens and colour temp. selectability with a contractor-friendly design to maximize product output flexibility, simplify installation, and deliver a smarter lighting solution from specification to installation.

Simple to Spec and Stock

- ✓ Reduce product selection complexity with just four SKUs consolidated from over 20.
- ✓ 90° adjustable head allows for more compact packaging, less hassle shipping, and improved handling.

Built for Simplicity from Spec-to-Install

Easy-access selectable switches located inside the fixture allow for quick adjustments during installation.

Fully selectable features allow for easy on-site customization.

CCT Selectable:
Choose between 3000K / 4000K / 5000K.

Lumen Adjustable:
Select from three wattage settings per SKU, ranging from 2,300–22,000 lumens.

Wide Input Voltage:
Supports 120–347V applications for greater installation flexibility.
