

RAB DESIGN Linear Vapourproof FW4-LED SERIES

RAB DESIGN's upgraded FW4-LED Series delivers improved flexibility with CCT selectability, lumen adjustability, wide voltage, and future-ready controls in one versatile fixture leading to an overall improved performance and value.

Same Trusted Design with Improved Performance

- ✓ **Now Fully Selectable SKUs:**
 - CCT Selectable – 3000K/4000K/5000K.
 - Lumen Adjustable – 3000-9000 lm (three wattage settings in each SKU).
 - Wide Input Voltage - 120-347V
- ✓ **Controls Capability:**

Choose a factory-installed or field-added microwave sensor to reduce energy consumption, simplify installation, and maximize rebate eligibility.
- ✓ **Certified for Superior Performance:**

DLC 6.0 Premium certified with NEMA 4X water and corrosion protection, IP66 dust and water protection, IK10 impact resistance, and NSF certification.
