

RAB DESIGN Nite-Sentry Twin Head Security Light

NS2HP-LED Series

Plug-and-play motion sensing, tool-less adjustable heads, and flexible CCT, brightness, photocell, and motion settings make RAB DESIGN's NS2HP-LED Series simple to install and customize. Add dusk-to-dawn night lighting for overnight visibility and peace of mind — all with the trusted performance of RAB DESIGN.

Simple-to-Install. Flexible to Customize.

✓ Performance and Customizability

- **Value-engineered polycarbonate housing:** Delivers reliable performance without unnecessary cost.
- **Wide motion detection:** 180° detection with up to 45' range helps capture movement across a broader area.
- **Fully selectable settings:** Adjust CCT, brightness, photocell sensitivity, and night lighting to suit different applications from one fixture.

✓ Engineered to Install and Perform

- **Aircraft cable included:** Provides added support and convenience during installation.
- **Tool-less adjustable heads:** Easily aim and adjust the fixture without tools for precise light placement.
- **Easy-access switches** — Quickly adjust key settings on-site.

Flexible Finishes. Ready-to-Go Motion Sensing.
