

RAB DESIGN Vapourproof LED

DVA/B/CKSX LED Series

Give the classic jam jar fixture a modern LED upgrade in under 10 minutes. The RAB DESIGN DVA/B/CKSX Series combines a timeless look with dependable performance and a built-in photocell.* Available in ceiling, wall, and pendant configurations with classic or modern lens options, it's an easy upgrade for tough environments.

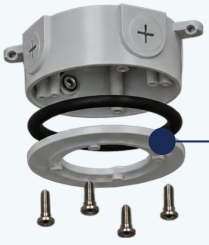

*DVAKSX and DVBKSX only.

Simple 10-Minute Retrofit

Upgrade incandescent light to modern LED efficiency and performance.

1. Disassemble the existing incandescent fixture and discard the bulb and bulb socket.

2. Install the shown components from new fixture into the existing housing.

3. Complete the wiring and install the gasket and LED compartment.

4. Install the gasket, globe, and guard to complete the retrofit.

Tough Design.
Dependable Performance.

Multiple Mounting Configurations

Wall Mount

Ceiling Mount

Pendant Mount

- **Durable Housing:** Die-cast aluminum housing for high durability.
- **Uniform Illumination:** Frosted polycarbonate lens for a uniform and glare-free illumination.
- **Plug-and-play photocell** for energy savings.*

*DVAKSX and DVBKSX only.

Keep the Classic Look Your Way
