RDA
LIGHTING

Hanging hook / hinge feature allows use of both hands

Back box first mounts to the wall, then fixture is attached using a hanging hook or hinge assembly. These assemblies allow the installer the use of both hands while wiring and making connections.

Hook Assembly
AWL - 14/26

Hinge Assembly
AWL – 50/80/103

Installs in under 10 minutes

RDA
LIGHTING

Built-in Leveling Bubble

Built-in leveling bubble
on fixture base facilitates
mounting alignment.

MS180DIM: Dimmable Smart Sensor – Use with 0 -10V dimmable driver

Dimmable for additional energy savings when used with optional smart sensor or on/off sensor.

Dimmable Smart Sensor

**RDA** LIGHTING®

Optional Accessories

Wire Guard

Visor

Polycarbonate Lens

Optional accessories including visor, polycarbonate lens, and wire guard provide additional protection to the fixture.
