DESIGN

BLV500

The BLV500 series is a traditional acorn style fixture for use in parks, along walkways, roadways or areas where a distinctive nostalgic look is required. The reflector is available in acrylic or polycarbonate for use in areas where breakage may be a concern.

GLOBE

The standard BLV520 comes with a polycarbonate globe with a type III or V distribution. Acrylic is also available. There are also optional internal reflectors available. A perforated light reflector and a solid light reflector. All globes are attached to the fitter using a 1/4 turn retainer ring made of cast aluminum.

FITTER

The fitter is made of cast aluminum which is available to fit a 3" tenon or a 4" round pole.

BALLAST/SOCKET ASSEMBLY

The ballast and socket assembly comes with a quick disconnect. All ballasts are high power factor and are available as a Tri-Tap 120-277-347 and 120-208-240 CWI. Wattages are available as follows 70,100,150 High Pressure Sodium and 70,100,150,175 Metal Halide.

SOCKET

Mogul or medium base 4KV pulse-rated socket with a nickel-plated screw shell and a spring-loaded centre contact.

LAMP Not included.

FINISH

Polyester powder coat finish. Standard colours are white, black, bronze and green. Custom colours are available upon request.

MOUNTING OPTIONS

The BLV500 series can be post top mounted or wall mounted with a decorative arm.
