

DYANA LED - BY THORN

The Dyana is a modern distinctive slim fixture with high performance and energy efficiency and versatility with easy maintenance. The Dyana is available in two sizes allowing designers to make the best choice for any project, with mounting heights between 6 and 8 metres and a choice of mounting brackets. The post top mounting option can allow the fixture to be tilted. The Dyana is available with 36 LED'S for the small version while the larger unit has 60 LED'S. Both LED arrays are available in narrow or wide optics. The Dyana can be used for residential complexes, pathways, roads and business complexes.

BODY / ARM MOUNT Die cast aluminum with a textured dark grey powder coat finish.

CANOPY Spun aluminum with a textured dark grey powder coat paint finish.

LENS Clear tempered glass with a continuous gasket.

LED'S Available with 36 LED'S (3000 lumens) 45 watt consumption or 60 LED'S (5000 lumens) 75 watt consumption. The LED'S are rated for minimum of 50,000 hours.

DISTRIBUTION Available with narrow or wide optics.

POWER SUPPLY Standard unit is 120-240 volt 60Hz. 347 volts available on request.

FINISH Standard finish is a textured dark grey. Custom colours are available.

OPTIONS Various mounting arms for pole and wall. Please consult factory for more information.
