

PCR-8 - LED AND HID CEILING MOUNT

The PCR-8 is available in LED and Metal Halide and is ideal for use in areas where you do not require a large amount of light but a soft pattern of light only. The LED option is great for areas where lamp replacement can be problem. With LED's being rated at 50,000 hours, this will not be a concern for years. The LED option comes with 12 LED's available in 1 watts, in the following colours, white, red, green, blue, amber or cyan. The Metal Halide option is available in 20 or 39 watt T4.5 lamp. Great for secondary entrances on commercial and industrial buildings. This unit is also available as a wall mount unit please see PWR-8D.

HOUSING Aluminum with a powder coat paint finish.

MOUNTING Mounts over a standard octagon box.

DRIVER 120 volts in, 12 volts out.

LENS Clear tempered glass with the option for a frosted lens.

LED's Twelve LED's available in 1 watt. Led's are available in white, red, green, blue, amber and cyan. Available in narrow, medium and wide distribution.

BALLAST Remote mounted, maximum distance from lamp is 50 feet. Available in 20 or 39 watt Metal Halide in 120 or 347 volt electronic.

LAMP Included

HARDWARE All external hardware is stainless steel.

FINISH Powder coat paint finish. Standard colours are sparkle silver, white, bronze and black. For custom colours please consult factory.
