

BAYSHORE MARINA FIXTURE

The Bayshore offers the traditional marina style fixture with performance and easy maintenance. The Bayshore has two distributions available (type III and type V), with a polycarbonate lens. The lens and guard are hinged and held in place with two set screws. Ideal for use on any project located near or on the waterfront. Great for estates, condominiums, parks, commercial buildings or street lighting.

FIXTURE The fixture and arm are made of cast aluminum. Upper decorative bend is made of aluminum.

REFLECTOR The reflector is made from spun aluminum. Inside of reflector can be painted white or the same colour as the fixture.

LENS The lens is prismatic polycarbonate and is available in type III or V.

BALLAST Ballasts are available in the following configurations. 120-277-347 and 120-208-240 CWI. For 70, 100 and 150 High Pressure Sodium and 70, 100, 150, 175 Metal Halide.

LAMP Not included.

MOUNTING Arm mounted on a pole.

SOCKET Mogul base 4KV pulse-rated socket with a nickel-plated screw shell and a spring-loaded centre contact.

FINISH Standard finishes are black, bronze and green. Customs colours are available.

OPTIONS Photocell.
