

BWR-3 UP/DOWN MR16 LED

The BWR-3 Up/Down uses 2 MR16 LED lamps. Each lamp has 3 x 1.2 watt LED's and are rated for 50,000 hours. LED's use less electricity and have longer life than traditional lamps thereby providing both electrical as well as maintenance cost savings. LED's are available in white, blue, red, yellow or green. Unit comes complete with integral transformer. The BWR-3 is great for accent lighting both indoors and out.

MOUNTING PLATE Aluminum with a powder coat paint finish. Mounts to standard octagon box.

ARM Extruded aluminum with powder coat paint finish. The arm also houses the transformer.

HOUSING Extruded aluminum with powder coat paint finish.

TRANSFORMER Electronic transformer 120 volt to 12 volts thermally protected.

SOCKET ASSEMBLY Porcelain sockets Gu5.3. Sockets are mounted on a spring loaded assembly.

LENS ASSEMBLY Die cast aluminum held in place with 3 stainless steel screws. The lens is clear tempered glass, 4mm thick. The lens assembly has two O-ring silicone gaskets.

LAMP Takes two high power MR16 LED lamps. Each MR16 LED lamp has three 1.2 watt LED lamps with a 30 degree beam spread. Available in white, red, blue, yellow or green. Lamps included.

FINISH Standard finishes are black, white and architectural bronze. For custom colours please consult factory.
