

D-CO LED FLOOD SIZE 2 BY THORN

The D-CO LED flood is a medium size flood with six 1.2 watt white LEDs. Available with 3000k or 4000k. The D-CO LED flood can be used for both indoor and outdoor applications. Each unit comes with a stake and 5 metres of cable and is driven at 120 volts with an integral driver. Suitable for use in landscape designs and highlighting architectural detail. For a smaller version please see D-CO LED FLOOD SIZE 1.

BODY Aluminum body with a grey finish.

YOKE Aluminum yoke that is designed to take a stake that is provided with the unit or can be mounted directly to a junction box.

LEDs Six 1.2 watt white LEDs. Available in 3000k and 4000k

LENS Clear tempered glass.
