

LL43-L WITH SPIKE AND CORD

The LL series of pagoda garden fixtures have a classic look and are designed to withstand the Canadian environment. All LL series are cast units. The LL43-L is ideal for use at the end of a daisy chain or by itself, with its 8' cord with a grounded plug. The LL43-L has a 10" top and 3 smaller tiers with a clear glass globe. Maximum wattage 100 incandescent.

TIERS Precision die cast with a powder coat paint finish.

BOTTOM FITTER Precision die cast with internal threads for holding glass globe. Bottom of fitter is threaded for 1/2" NPS pipe. Tiers are mounted to bottom fitter with stainless set screws. Bottom fitter has a powder coat paint finish.

GLASS Clear glass with threading. Replacement glass is GL100.

SOCKET Medium base 4KV pulse-rated socket with a nickel-plated screw shell and a spring-loaded centre contact.

STEM 12" metal stem with a powder coat paint finish.

SPIKE Precision die cast, unpainted.

ELECTRICAL CORD 8" cord rated for outdoor use with a 3 prong plug.

HARDWARE All external hardware is stainless steel.

FINISH Standard finishes are black and green. Custom colours are available, please consult factory.
