### SPECIFICATIONS

#### Construction

WRD4 has an extruded aluminum housing with a powder coat paint finish. The fixture has a clear tempered glass lens which is held in place with a gasket and three stainless steel screws making it approved for wet locations.

#### Mounting

The fixture can be mounted directly on to the wall with a recessed junction box and has an easy mounting system. The galvanized steel plate is attached to the wall with 4 screws. The fixture then slides under the two pins and is secured by the two set screws at the bottom.

#### Optics

The fixture has a standard color temperature of 5000K, 4000K and 3000K are available as options. The fixture also has optional diffusion lenses for narrow, medium, wide or extra wide beams.

#### Electrical

The standard unit has a high efficiency driver that operates at 120-277V.

#### Finish

Standard finish is black, bronze and white. Custom colors available.

<b>Diameter</b>	<b>4.7"</b>
