

QF500F QUARTZ FLOOD

The QF500 watt quartz flood is a specification grade fixture with a curved back, bottom hinge and visor to cut down on uplight. Ideal for use on houses, barns, small commercial properties and cottages. For outdoor use only.

HOUSING Precision die-cast aluminum housing with heat fins on the back for heat dissipation. Housing has a powder coat paint finish.

REFLECTOR Semi-specular anodized aluminum.

HOOD Integral hood with glare shield minimizes glare. Hood is bottom hinged with a stainless steel clip with vandal proof screw capability..

LENS 5mm thick, tempered glass lens with one piece molded silicone gasket.

LENS GASKET High temperature silicone gasket stays in place when relamping.

LAMP All units come complete with a 500 watt 130 volt quartz lamp. Lamp packed with protective cushion for easy installation.

ARM Precision die-cast aluminum arm with locking teeth that tightens securely with just finger pressure.

SOCKET Double ended porcelain RSC base socket with spring loaded centre contacts and strain relieved 250°C Teflon insulated leads.

MOUNTING 1/2" threaded NPS arm with lock nut. Fits all standard mounting plates.

FINISH Standard colours are bronze and white.

OPTIONS Chrome plated wire guard.
