#### SPECIFICATIONS

##### Housing

Sturdy aluminum plate with highly reflective white tray. High efficiency LED driver is mounted right on the back of the unit. The retrofit kit has 2 sets of knockouts to accomodate many configurations.

##### Lens

Frosted lens allows for glare free illumination.

##### Electrical

Total system wattage of the unit is 43 watts. Each unit has high efficiency LED boards and high efficiency drivers that operate at 100V - 277V.

##### Dimming

0-10V dimming is available as a option.

##### Easy Installation

No need to re-wire, simply remove the tray with flourescent ballast and sockets and replace with LED tray that includes driver and LED's.

##### Wiring

Easy installation eliminates the need to re-wire the existing fixture.

##### Packaging

Unit comes 2 per pack.
