

## TORCHLITE

*The traditional styled Torchlite is available as a post top or wall mounted lighting fixture. It provides distinctive illumination for parks, gardens, townhouse areas, restaurants, parking areas and for other general lighting requirements*

**TOP AND FINIAL** Round cast aluminum top has a single screw and hinge for easy lamp replacement.

**REFLECTOR** Highly specular reflector mounted to the side of the top and the option of either a type III or V glass refractor. The vertical lamp position maximizes light output, to ensure a uniform distribution and to minimize direct glare.

**OUTER LENS** Round tapered thermoformed clear polycarbonate lens.

**CAGE ASSEMBLY** Four decorative uprights are manufactured of cast aluminum and attached to the cast base with stainless steel fasteners.

**BALLAST** All ballasts are Tri-Tap 120,277,347. Available wattages for High Pressure Sodium are 50, 70, 100 and 150. For Metal Halide 50, 70, 100, 150 and 175.

**LAMP** All units come complete with lamp.

**SOCKET** Medium base 4KV pulse-rated socket with a nickle-plated screw shell and a spring-loaded centre contact.

**MOUNTING** Fixture is designed to slip fit a 3" round tenon, with three stainless steel fasteners.

**FINISH** The standard finishes are black, bronze and white. Custom colours are available.

**OPTIONS** House side cut-off and photo-cell (note photocell is installed on the pole).
