

## TROIKA FLOOD - BY THORN

*The Troika is an asymmetric flood for 250 to 400 watt Metal Halide and 250, 400 and 600 watt high pressure sodium. The Troika has an innovative reflector that optimizes performance with an adjustable lamp-holder that offers a variety of light distributions. Light output is finely controlled to minimize light distribution. The Troika has four different distributions for each lamp option. Ideal for tennis courts, sports applications and parking lots.*

**HOUSING** Recyclable die-cast aluminum LM2, with a grey powder coated paint finish.

**LENS** 5mm clear tempered glass with a continuous gasket.

**REFLECTOR** Ultra specular pre-anodized high grade aluminum.

**BALLAST** All ballasts are Tri-Tap 120,277,347 volts. Available wattages are 250, 400 watts in metal halide and 250, 400 and 600 watts high pressure sodium.

**SOCKET** Mogul base 4KV pulse-rated socket with a nickle-plated screw shell and a spring-loaded centre contact.

**LAMP** Included

**FINISH** Standard finish is grey. Custom colours are available

**OPTIONS** Visor, wire guard, barn doors, louvre attachment, colour filters available in blue, red, green and yellow.
