

## WPTS - SMALL TRAPEZOID MH CFL LED

*The WPTS is a wall-mounted full cut-off fixture with universal mounting plate and a hinged lens frame for easy lamp replacement. Ideal for use in almost any application where light trespass or glare is a concern. For a larger version please see WPT or WPTM.*

**HOUSING** Precision die-cast aluminum with decorative bands. Housing has a powder coat paint finish.

**LENS FRAME** Precision die-cast aluminum hinged frame with a continuous rubber silicone gasket. Lens held in place with two screws. Lens frame has a powder coat paint finish.

**GLASS** Tempered clear glass with a continuous silicone rubber gasket. Glass is held in place with 2 clamps.

**LEDS** Thirteen LEDs consuming 20 watts rated for 50,000 hours plus operation.

**BALLAST** Tri-Tap 120/277/347 volts for 70 watt Metal Halide. Electronic ballast for CFL option 120-277 and 347. LED options are available with 120- 277 volt power supply.

**LAMP** All units come complete with lamp.

**SOCKET** Medium base 4KV pulse-rated socket with a nickel-plated screw shell and a spring-loaded centre contact. White thermo plastic with integral clips for lamp retention for Compact Fluorescent models.

**HARDWARE** All hardware is stainless steel.

**FINISH** Standard colour is Bronze. For custom colours please consult factory.

**OPTIONS** Tamper Proof Hardware.
