

PRISMALUX

LED

The Prismalux is ideal for stairwells, maintenance areas, industrial applications with low ceilings and particularly within the mining Industry. The LED option can replace a 150MH fixture giving similar light levels.

HOUSING Die-cast aluminum alloy (LM6M). The housing has a 1/2" threaded entry on both ends of the luminaire. One entry is plugged.

FRAME ASSEMBLY The lens frame is a die-cast aluminum alloy with a continuous neoprene gasket. This enables the fixture to be rated IP65. The lens is secured by four corner brackets and is sealed to the lens frame with a gasket. A stainless steel pin hinges the lens frame assembly to the housing, while a captive stainless steel screw secures the other end.

OPTICAL ASSEMBLY The aluminum reflector design, combined with the prismatic borosilicate lens, provides a precise and efficient optical performance.

LED's Six LED arrays driven at 500ma provide 4467 lumens. The LEDs consume 58 watts (total power consumed 70 watts). Standard unit comes with 3k LEDs.

DRIVER Standard unit comes with a 120-277 volt driver at 500ma. Optimal 347 volts is available.

OPTIONS Wire guard

FINISH Standard finish is black.

RATING IP65

MEETS LM-79, LM-80
